

The Department of Communication Engineering at the National Central University invites outstanding applicants for several faculty positions at all levels including Assistant, Associate and Full Professors, to begin on 1st Feb., 2022. The areas of particular interest are Communication Networks, Signal Processing, and Communication Systems. An earned doctorate degree in Electrical Engineering, Computer Science & Engineering, Communication Engineering or closely related fields is required. Industrial experience is preferred. Applicants must have demonstrated ability to teach undergraduate Electrical Engineering or Computer Science & Engineering courses at all levels. In addition, the candidate selected must be dedicated to excellence in research and graduate education.

The Department of Communication Engineering was inaugurated on August 1, 2003 and teamed from 15 full-time faculty members (10 Professors, 3 Associate Professor, and 2 Assistant Professors) across all areas of communication engineering. In its current capacity, the Department accepts around 60 graduate students (including both master and doctoral levels) and 44 undergraduate students every year, and is expected to make every effort in achieving ultimate academic excellence in telecommunication researches.

The deadline for the application of spring semester 2022 is 31/10/2021. Interested applicants may send their resume or curriculum vitae, publication list, reprints of recent publications (within 5 years), 2 or more recommendation letters, and copies of certificates of education and working experience to:

Department of Communication Engineering  
College of Electrical Engineering and Computer Science  
National Central University

No. 300, Zhongda Rd., Zhongli District,  
Taoyuan City 32001, Taiwan (R.O.C.)
